

EV Charging solutions and accessories

Product catalogue 2024

Why choose BG SyncEV?

With over 80 years experience in the electrical industry, BG SyncEV (part of the Luceco PLC Group) inspires confidence and trust.

Our range of EV charging products for home, commercial or fleet operator are smart, powerful and safe, packed full of technology to future proof your investment.

Smart

We optimise EV charging for the cheapest, greenest energy possible.

Track usage and costs all within our free & easy to use partner app

Safe

Built-in RCD and Open PEN protection.

No need for complex and expensive earth-rod installations, and our safety RCD protection ensures peace of mind against electrical shocks or short circuits

Reliable

Covered by a 3 year warranty as standard, telephone & online technical support, and guaranteed compatibility with all EV makes and models.

Fully compliant with the latest Electric Vehicles (Smart Charge Points) Regulations

Compatible with all electric and hybrid plug-in vehicles

Charge-point app

Included at no additional cost, Monta lets you tailor your EV Smart Charging needs. Have full control over your charge-point; deciding who can use it, when and at what cost

Smart charging

Set your charge-point to start charging when the energy is greenest or the cost is lowest – save money and CO₂

Solar charging

Dynamically charge your car from your excess solar power generation, with easy set up and no additional cost

Roaming

Get access to more than 200,000 publicly available charge-points. Selected charge-points can be reserved through the app

Charger customisation

Customize your charge-point settings to suit your needs; choose who can access your charge-point, when & at what cost.

Share & monetise your charger

Choose who can access your charger (such as members of your household or the general public), as well as the price and time restrictions for that access

24/7 app support

The Monta customer success team is available 24/7 to answer all your questions through chat or email

Wall Charger 2 EV Chargers

Packed with Smart technology, **Wall Charger 2** charging stations are the perfect solution for electric vehicle charging at home, workplace or for fleet operators.

7 models available: x2 Tethered, x3 Socketed 7.4kW Single Phase and x2 Socketed 22kW Three Phase

Features:

-  **NEW** – Integrated SolarCharge – charge your car for FREE with your excess Solar generation. No complex set up or subscriptions required.
-  Quick and easy installation – with UK based technical support
-  Full Smart functionality via the Monta App and OCPP 1.6J connectivity
-  Dynamic charging – up to 7.4 kW or 22kW (32A, model specific)
-  No earth rod required – integrated open PEN conductor protection
-  Safe – Integrated type A 30mA RCD with 6mA DC protection
-  Compatible with all electric and hybrid plug-in vehicles, and Fully compliant with the latest Electric Vehicles (Smart Charge Points) Regulations
-  3 year on-site warranty from our trained and registered installers

Wall Charger 2 range

- Wi-Fi & Ethernet as standard, with options for 4G and RFID
- Socketed or Tethered with Type 2 connection
- Single Phase 7.4kW and Three Phase 22kW models
- Interchangeable front fascia, change the shade or colour!
- Suitable for residential and commercial use
- Two base and rear entry points for ease of install
- Full smart functionality and OCPP 1.6J connectivity
- No earth rod required – integrated open PEN conductor protection
- Type A RCD (30mA AC + 6mA DC)
- Integrated power meter with support for external MID Meters
- Compatible with EV Stands from BG SyncEV and EV Tower with BG SyncEV mounting plate
- Includes CT Clamp for Dynamic load management (7KW versions)

CODE : **DESCRIPTION :**

SINGLE PHASE 7.4kW SOCKETED

- EVWC2S7G** Wi-Fi + Ethernet (incl. CT clamp)
- EVWC2S7GG** Wi-Fi + Ethernet + 4G* (incl. CT clamp)
- EVWC2S7GGR** Wi-Fi + Ethernet + 4G* + RFID (incl. CT clamp)

SINGLE PHASE 7.4kW TETHERED

- EVWC2T7G** Wi-Fi + Ethernet, 7.5m cable (incl. CT clamp)
- EVWC2T7GG** Wi-Fi + Ethernet + 4G*, 7.5m cable (incl. CT clamp)

THREE PHASE 22kW SOCKETED

- EVWC2S22GR** Wi-Fi + Ethernet + RFID
- EVWC2S22GGR** Wi-Fi + Ethernet + 4G* + RFID

*4G data period is for 3 years, see our website for more information

EVC22328TL	TYPE 2 – TYPE 2 3 PHASE	8 METRE

Portable EV chargers

Perfect for travelling to destinations that only offer a domestic (13A UK 3 pin) socket, suitable for all plug-in electric vehicles

- Provides safe and intelligent portable EV charging*
- UK 3 pin plug to Type 2 EV plug
- Charges up-to 10A, 2.4kW (Mode 2) – up to 8 miles per charging hour
- IP65 rated (control box) – IP65 when connected to vehicle, IP55 when not in use and end-caps applied

CODE :	TYPE :	LENGTH :
EVCM22135	UK 3-PIN – TYPE 2	5 METRE
EVCM221310	UK 3-PIN – TYPE 2	10 METRE

*Any portable charger used for regular charging should be connected via a dedicated circuit including a socket designed and marked "Suitable for EV charging"

Charging cable carry case

- Suitable for use with Type 1 & Type 2 Mode 3 charge cables, and Mode 2 EV charger cables

CODE : EVCASE

EV Charger circuit protection

Designed specifically for use with EV vehicle chargers to allow for internal and external wiring applications and are 18th Edition Amendment 2 compliant

- Quick and easy installation
- Type 2 SPD included
- IP rated protection

Commercial charging

A BG SyncEV commercial subscription gives site owners access to a range of advanced Monta features to support more complex charging solutions.

24/7 support from Monta keeps the site running smoothly, while invoicing and payments are handled efficiently through the Monta platform.

BG SyncEV can set-up a commercial site with the site operator after installation, but for a more streamlined process please contact our commercial team prior to installation.

Visit the Commercial page of our website for more details or contact us at: commercial@syncev.co.uk

For more complex applications:

- Housing associations / developments
- Workplaces
- Depots
- Public charging
